This book focused on texts and contexts is dedicated to a great contemporary Romanist, legal historian and comparative lawyer: Professor Watson. Are all film stars linked to Kevin Bacon? Why do the stock markets rise and fall sharply on the strength of a vague rumour? How does gossip spread so quickly? Are we all related through six degrees of separation? There is a growing awareness of the complex networks that pervade modern society. We see them in the rapid growth of the Internet, the ease of global communication, the swift spread of news and information, and in the way epidemics and financial crises develop with startling speed and intensity. This introductory book on the new science of networks takes an interdisciplinary approach, using economics, sociology, computing, information science and applied mathematics to address fundamental questions about the links that connect us, and the ways that our decisions can have consequences for others. He flat lined; his spirit and soul left his body, and he became aware of what was transpiring around him. There were no bright lights, no tunnels, and no one waiting to meet him. Tom could see the operating table and watched the efforts to revive him. It was after this experience that Tom began to seriously consider the sophisticated and complex nature of dueling realities; the spiritual and physical realms are very real. An understanding of life in two separate realities significantly alters our understanding as Author Tom Newman explains in *A Brief History of the Bible*. This informative and biblically-based book gives great insight for those curious about what the bible has to say over this topic and how it works harmoniously within itself to present us theological truth. Tom did not find the answers in the sciences, psychology or philosophy. The Bible seemed to hold the best possibilities for answers and after a twenty-year-study of Scripture, Tom found the answers to his questions about life and death. Tom Newman currently resides in Eden Prairie, New Mexico. *America's History for the AP® Course* offers a thematic approach paired with skills-oriented pedagogy to help students succeed in the redesigned AP® U.S. History course. In a remarkable decade of public investment in higher education, some 200 new university campuses were established worldwide between 1961 and 1970. This volume offers a comparative and connective global history of these institutions, illustrating how their establishment, intellectual output and pedagogical experimentation sheds light on the social and cultural topography of the long 1960s. With an impressive geographic coverage - using case studies from Europe, the Americas, Africa and Asia - the book explores how these universities have influenced academic disciplines and pioneered new types of teaching, architectural design and student experience. From educational reform in West Germany to the establishment of new institutions with progressive, interdisciplinary curricula in the Commonwealth, the illuminating case studies of this volume demonstrate how these universities shared in a common cause: the embodiment of 'utopian' ideals of living, learning and governance. At a time when the role of higher education is fiercely debated, *Utopian Universities* is a timely and considered intervention that offers a wide-ranging, historical dimension to contemporary predicaments. Book #1 in the NYT best-selling series, with cover art from the feature film, *The Lightning Thief*. Set in the future after a devastating global nuclear war, *The Chrysalids* is a philosophical tale with as much resonance today as it had when it was first written. David Storm lives in a tight-knit community of religious and genetic fundamentalists; a group of people who exist in a state of constant alert for any deviation of what they believe to be the norm of God's creation. "Offenses" consist of plants and animals that are in any way unusual, and they are publicly burned to the accompaniment of the singing of hymns. "Blasphemies" are human beings who show any sign of abnormality, and they're banned from society. So when David realizes that he is in possession of a power that would label him a mutant, he is forced to keep it a secret and reckon with the idea of fleeing to the Badlands—a new world that could offer him either a death sentence or freedom. Two young boys encounter the best and worst of humanity during the Holocaust in this powerful read that USA Today called "as memorable an introduction to the subject as *The Diary of Anne Frank*." Berlin, 1942: When Bruno returns home from school one day, he discovers that his belongings are being packed in crates. His father has received a promotion and the family must move to a new house far, far away, where there is no one to play with and nothing to do. A tall fence stretches as far as the eye can see and cuts him off from the strange people in the distance. But Bruno longs to be an explorer and decides that there must be more to this desolate new place than meets the eye. While exploring his new environment, he meets another boy whose life and circumstances are very different from his own, and their meeting results in a friendship that has devastating consequences. Living in a "perfect" world without social ills, a boy approaches the time when he will receive a life assignment from the Elders, but his selection leads him to a mysterious man known as the Giver, who reveals the dark secrets behind the utopian facade. Scholars have recently begun to study collections of Byzantine historical excerpts as autonomous pieces of literature. This book focuses on a series of minor collections that have received little or no scholarly attention, including the *Epitome of the Seventh Century*, the *Excerpta Anonymi* (tenth century), the *Excerpta Salmasiana* (eighth to eleventh centuries), and the *Excerpta Planudea* (thirteenth century). Three aspects of these texts are analysed in detail: their method of redaction, their literary structure, and their cultural and political function. Combining codicological, literary, and political analyses, this study contributes to a better understanding of the intertwining of knowledge and power, and suggests that these collections of historical excerpts should be seen as a Byzantine way of rewriting history. This book is not published to tell us that there is sin and woe and misery in this world. We know it all too well. This book is not published to tell us that there is an irreconcilable controversy between darkness and light, sin and righteousness, wrong and right, death and life. In our heart of hearts we know it, and know that we are participators, actors, in the conflict. But to every one of us comes at times a longing to know more of the great controversy. How did the controversy begin? or was it always here? What elements enter into its awfully complex aspect? How am I related to it? What is my responsibility? I find myself in this world by no choice of my own. Does that mean to me evil or good? It is the aim of this book, reader, to help the troubled soul to a right solution of all these problems. It is written by one who has tasted and found that God is good, and who has learned in communion with God and the study of His word that the secret of the Lord is with them that fear Him, and that He will show them His covenant. Following the fall of Rome, the sea is increasingly the stage upon which the human struggle of

western civilization is played out. In a world of few roads and great disorder, the sea is the medium on which power is projected and wealth sought. Yet this confused period in the history of maritime warfare has rarely been studied – it is little known and even less understood. Charles Stanton uses an innovative and involving approach to describe this fascinating but neglected facet of European medieval history. He depicts the development of maritime warfare from the end of the Roman Empire to the dawn of the Renaissance, detailing the wars waged in the Mediterranean by the Byzantines, Muslims, Normans, Crusaders, the Italian maritime republics, Angevins and Aragonese as well as those fought in northern waters by the Vikings, English, French and the Hanseatic League. This pioneering study will be compelling reading for everyone interested in medieval warfare and maritime history. “Wealth without work

Krakauer’s page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force.

The power and luminosity of Jon Krakauer's stoytelling blaze through every page. Review of ch. 17 of: The Cambridge ancient history. Volume I. Rev. ed. Cambridge : Cambridge University Press, 1968; and ch. 21 and ch. 28 of: The Cambridge ancient history. Volume II. Rev. ed. Cambridge : Cambridge University Press, 1968-1969.
