Jeremy Black offers a historian's interpretation from the perspective of 2020 and the latest Bond film, assessing James Bond in terms of the greatly changing world order of the Bond years—a lifetime that stretches from 1953, when the first novel appeared, to the present. Black argues that the Bond novels—the Fleming books as well as the often-neglected novels authored by others after Fleming died in 1964—and films drew on current fears in order to reduce the implausibility of the villains and their villainy. The novels and films also presented potent images of national character, explored the rapidly changing relationship between a declining Britain and an ascendant United States, charted the course of the Cold War and the subsequent post-1990 world, and offered an

evolving but always potent demonology. Bond was, and still is, an important aspect of post-World War II popular culture throughout the Western world. This was particularly so after Hollywood launched the filmic Bond, thus making him not only a character designed for the American film market but also a world product and a figure of globalization. Class, place, gender, violence, sex, race—all are themes that Black scrutinizes through the ongoing shifts in characterization and plot. His well-informed and well-argued analysis provides a fascinating history of the enduring and evolving appeal of James Bond. This updated edition explores new developments in the Daniel Craig years, looks to the post-Craig years, and considers the cultural significance of Bond in the modern world. A spy is dead. Packed with behind-the-scenes information, fascinating facts, trivia, bloopers, classic quotes, character bios, cast and filmmaker bios, and hundreds of rare and unusual photographs of those in front of and behind the camera Ian Fleming's James Bond character has entertained motion picture audiences for nearly sixty years, and the filmmakers have come a long way since they spent \$1 million producing the very first James Bond movie, *Dr. No*, in 1962. The 2015 Bond title, *Spectre*, cost \$250 million and grossed \$881 million worldwide—and 2021's *No Time to Die* is certain to become another global blockbuster. The *James Bond Movie Encyclopedia* is the completely up-to-date edition of author Steven Jay Rubin's seminal work on the James Bond film series. It covers the entire series through *No Time to Die* and showcases the type of exhaustive research that has been a hallmark of Rubin's work in film history. From the bios of Bond girls in front of the camera to rare and unusual photographs of those behind it, no detail of the Bond legacy is left uncovered. The release of *No Time To Die* in 2021 heralds the arrival of the twenty-fifth installment in the James Bond film series. Since the release of *Dr. No* in 1962, the cinematic James Bond has expedited the transformation of Ian Fleming's literary creation into an icon of western popular culture that has captivated audiences across the globe by transcending barriers of ideology, nation, empire, gender, race, ethnicity, and generation. *The Cultural Life of James Bond: Specters of 007* untangles the seemingly perpetual allure of the Bond phenomenon by looking at the non-canonical texts and contexts that encompass the cultural life of James Bond. Chronicling the evolution of the British secret agent over half a century of political, social, and cultural permutations, the fifteen chapters examine the Bond-brand beyond the film series and across media platforms while understanding these ancillary texts and contexts as sites of negotiation with the Eon franchise. James Bond is trapped in Los Angeles with a MI6 agent under fire and a foreign intelligence service trying to put them both in bags... and possibly more than one foreign intelligence service. And things may not be any safer in Britain, with bodies dropping and ghosts moving in the political mist... "Fashioning James Bond provides the first full-length critical study of the costume and fashion evident in the James Bond films. Its methodological approach includes research generated from archives, close textual analysis of the costumes and fashion brands presented within the James Bond films, interviews with families of tailors and shirtmakers who assisted in creating the 'look' and fashion for the character of James Bond, and critical reception and the marketing strategies for the films, promoted to create a 'James Bond lifestyle'. In it, Chapman questions why costumes are an important tool for analysing and evaluating film, both in terms of the development of gender in the James Bond film franchise and how it evokes the desire in audiences to become part of a specific lifestyle construct through the wearing of fashions as seen on screen. It researches the agency of the costume department, director, producer and actor in creating the look and characterisation of James Bond, the villains, the Bond girls and the henchmen who inhabit the world of 007. In doing so, this book contributes to the emerging critical literature surrounding the combined areas of film, fashion, gender and James Bond."-- Sean Connery's tuxedo,

Ursula Andress' bikini, Oddjob's bowler hat, and Q's gadgets are just a few defining features of the 007 world examined in *The James Bond Phenomenon*. Drawn from the fields of literary, film, music, and cultural studies, the essays in this collection range from revitalized readings of Ian Fleming's original spy novels to the analysis of Pussy Galore's lesbianism, Miss Moneypenny's filmic feminism, and Pierce Brosnan's techno-fetishism. Together, the essays not only consider the James Bond novels and films in relation to their historical, political, and social contexts from the Cold War period onwards, but also examine the classic Bond canon from an array of theoretical perspectives. This updated and expanded edition features new essays on a range of hot topics, including Daniel Craig's debut as Bond, *Playboy* magazine's obsession with the 007 lifestyle, Bond's erotic Orientalism, and the rise of 007 video gaming. \*\*\*\*Updated and expanded including many illustrations by George Almond. Go inside the mind of the most ruthless sociopath in the world, courtesy of GREG PAK (*World War Hulk*, *Weapon X*) and ERIC GAPSTUR (*Batman Beyond*, *The Flash: Year Zero*). Chronicles all the behind-the-scenes stories of every song and score written for the James Bond films and draws from new interviews with many of the songwriters and composers. The first time Pierce Brosnan went to the cinema, aged 11, he watched a James Bond film. At the age of 27, he married a James Bond girl. He had the chance of playing James Bond himself at the age of 33 but lost the role due to contractual obligations. He was 41 when he was formally announced as the fifth actor to play James Bond on June 8, 1994, playing the role for a decade in four productions and three original video games. One could say that it was written that at some point of his life Brosnan would play Ian Fleming's secret agent, and this happened during a particular time where the world was going through many cultural, technological and political changes. This book offers an in-depth look to the era that took the franchise to new heights from the 1990s to the first years of the new millennium, remarking the importance that Pierce Brosnan's portrayal of James Bond has had to guarantee the continued success of 007 into the 21st century. *Fashioning James Bond* is the first book to study the costumes and fashions of the James Bond movie franchise, from Sean Connery in 1962's *Dr No* to Daniel Craig in *Spectre* (2015). Llewella Chapman draws on original archival research, close analysis of the costumes and fashion brands featured in the Bond films, interviews with families of tailors and shirt-makers who assisted in creating the 'look' of James Bond, and considers marketing strategies for the films and tie-in merchandise that promoted the idea of an aspirational 'James Bond lifestyle'. Addressing each Bond film in turn, Chapman questions why costumes are an

important tool for analysing and evaluating film, both in terms of the development of gender and identity in the James Bond film franchise in relation to character, and how it evokes the desire in audiences to become part of a specific lifestyle construct through the wearing of fashions as seen on screen. She researches the agency of the costume department, director, producer and actor in creating the look and characterisation of James Bond, the villains, the Bond girls and the henchmen who inhabit the world of 007. Alongside this, she analyses trends and their impact on the Bond films, how the different costume designers have individually and creatively approached costuming them, and how the costumes were designed and developed from novel to script and screen. In doing so, this book contributes to the emerging critical literature surrounding the combined areas of film, fashion, gender and James Bond. The staying power of the world's most dashing secret agent and the evolution of the James Bond franchise are explored in this smart yet nostalgic collection of essays. Leading writers, including Raymond Benson, J.A. Konrath, Raelynn Hillhouse, and John Cox, discuss the ten sexiest Bond girls, the best villains, and the controversy surrounding the latest actor to play James Bond. Topics covered range from the playful—how to build a secret lair and avoid the perennial mistakes made by would-be world dominators—to the thought-provoking, such as Bond's place in the modern world, his Oedipal tendencies and perceived misogyny, and the unerring allure of the charming spy. Starting with 1964's *Goldfinger*, every James Bond film has followed the same ritual, and so has its audience: after an exciting action sequence the screen goes black and the viewer spends three long minutes absorbing abstract opening credits and a song that sounds like it wants to return to 1964. In *The James Bond Songs* authors Adrian Daub and Charles Kronengold use the genre to trace not only a changing cultural landscape, but also evolving conceptions of what a pop song is. They argue that the story of the Bond song is the story of the pop song more generally, and perhaps even the story of its end. Each chapter discusses a particular segment of the Bond canon and contextualizes it in its era's music and culture. But the book also asks how Bond and his music reflected and influenced our feelings about such topics as masculinity, race, money, and aging. Through these individual pieces the book presents the Bond song as the perfect anthem of late capitalism. The Bond songs want to talk about the fulfillment that comes from fast cars, shaken Martinis and mindless sex, but their unstable speakers, subjects, and addressees actually undercut the logic of the lifestyle James Bond is sworn to defend. The book is an invitation to think critically about pop music, about genre, and about the political aspects of popular culture in the twentieth century and beyond. An illustrated biography of the ornithologist James Bond, the author of the book *Birds of the West Indies* and the namesake of Ian Fleming's fictional British spy. Captured by the Russians, Lieutenant Bond meets the beautiful Oksana, who may be his ticket to safety, or lead to his doom. But it's quite difficult to know ally from foe, when you've been drugged. The epic World War 2 tale continues from JEFF PARKER (Aquaman, *Fantastic Four*) and superstar artist IBRAHIM MOUSTAFA (*Mother Panic*, *The Flash*)! When Jerry Grayson left the Royal Navy's Search and Rescue helicopter fleet aged 25, he was the most decorated peacetime naval pilot in history. In terms of excitement, however, civilian life couldn't compete - especially when the only real demand for helicopter pilots was as glorified chauffeurs for the very wealthy. Jerry had a passion for the movies and spotted a way in to a new career. Somebody had to fly those crazy acrobatic stunts and capture dramatic aerial footage, and he reckoned he could do it better, push his helicopter further, and guarantee the most exciting shots, which other pilots might have considered impossible. And he was right. Over the past 35 years Jerry has become the go-to man for aerial filmmaking, shooting everything from music videos, car commercials and nature documentaries to the Athens Olympic Games and the landing of the Space Shuttle

Atlantis. But it is in Hollywood that Jerry has really made his mark. He was barely out of his 20s when he worked on the airborne finale to the James Bond film *A View to a Kill*, and that helped cement his reputation for the decades since. *Film Pilot: Flying the Lens* is full of entertaining behind-the-scenes stories (some that almost ended in disaster for Jerry and an A-list actor or two...) and revelatory insights into just how this invisible sector of the film business operates. We all take aerial footage for granted, without appreciating the lengths gone to shoot it. This is perhaps never more apparent than when Jerry's skills are called upon to gather more important footage - the burning oilfields of Kuwait following the first Gulf War, and flooded New Orleans after Hurricane Katrina. "Bond. James Bond." Since Sean Connery first uttered that iconic phrase in *Dr. No*, more than one quarter of the world's population has seen a 007 film. Witty and urbane, Bond seduces and kills with equal ease - often, it seems, with equal enthusiasm. This enthusiasm, coupled with his freedom to do what is forbidden to everyone else, evokes fascinating philosophical questions. Here, 15 witty, thought-provoking essays discuss hidden issues in Bond's world, from his carnal pleasures to his license to kill. Among the lively topics explored are Bond's relation to existentialism, including his graduation "beyond good and evil"; his objectification of women; the paradox of breaking the law in order to ultimately uphold it like any "stupid policeman"; the personality of 007 in terms of Plato's moral psychology; and the Hegelian quest for recognition evinced by Bond villains. A reference guide to all the Bond movies rounds out the book's many pleasures. Daniel Craig contributed the foreword to this deluxe book that - in words and stunning photos - tells the history of 007's Aston Martin DB5. James Bond first took the wheel of the DB5 in *Goldfinger* (1963), redefining the action movie forever, and setting a standard for everything that followed. Over the ensuing decades, the Bond-Aston Martin association has only grown stronger. They're the perfect match: understated, stylish, powerful, and not to be underestimated. This book spans that... bond, starting in 1963, when the DB5 was brand-new, to the upcoming 25th Bond film, *No Time to Die*, with the DB5 again taking center stage. EON and Aston Martin provided author Simon Hugo unprecedented access to their official archives, enabling Hugo to present the DB5's inside story and complement it with original production artwork, film storyboards, and exclusive photography. This deluxe coffee-table book measures 11"x12 1/2" and is packed with full-page, high-quality photographs, including multiple shots illustrating the DB5's appearance in *No Time to Die*, making it the ideal gift for James Bond fans. Take a rare behind-the-scenes tour of the world's most successful film series of all time with unprecedented access on the sets and exclusive interviews with Pierce Brosnan, Roger Moore, Timothy Dalton and Sean Connery, as well as key directors, stunt and special effects wizards, old favourites like 'Q', Miss Money Penny, and of course, the bevy of Bond girls. From literary beginnings to international film sensation, this book also retraces Bond's cultural impact with such luminaries as Hugh Hefner and CIA agent E. Howard Hunt discussing the Bond phenomenon. Captured by the Russians, Lieutenant Bond meets the beautiful Oksana, who may be his ticket to safety, or lead to his doom. But it's quite difficult to know ally from foe, when you've been drugged. The epic World War 2 tale continues from JEFF PARKER (*Aquaman*, *Fantastic Four*) and superstar artist IBRAHIM MOUSTAFA (*Mother Panic*, *The Flash*)! On the brink of becoming a security risk after the death of his wife, Secret Service agent 007 is sent to Japan and encounters an old enemy. Official, original James Bond from a writer described by Len Deighton as a 'master storyteller'.
